**Malta News Agency** will also develop and provide an articulated SPORTS LINE based on the more than a quarter of a century experience of its partner ITALPRESS.

**MNA** will be a platform and a voice for ALL Sports disciplines, from the most popular to those traditionally considered minor sports. For **MNA** though, all Federations, Associations and athletes deserve attention and respect.

**SPORTS PLUS** will depend mostly, apart from the commitment of the **MNA** team, on the full collaboration of the National Associations including The Kunsill Malti għall-isport (KMS) and not least the Malta Olympic Committee (MOC). At the other end Media Groups will be equally important to promote and dedicate more time and space to a wider spectrum of Maltese Sports.

Two major Italian journalists, namely Italo Cucci and Franco Zuccalà, have also joined **MNA SPORTS PLUS**, and through their long standing expertise will write opinion pieces, commentary and will certainly also represent not only a highly professional and respected resource, but will also be engaged in a series of Seminars, Forums and Courses in Sports Journalism, to which other personalities will be invited to participate and contribute.
